PERSONAL DETAILS:

-  @abaine-vianny
- **Nationality:** Ugandan

OBJECTIVE:

A dedicated and a highly skilled computer scientist and a monitoring and evaluation professional seeking to leverage extensive background in data analytics, research, and evaluation acumen to drive innovation, optimize processes, enhance organizational performance through strategic monitoring and evaluation practices, and contribute valuable insights and solutions to foster data-driven decision-making and continuous improvement.

PERSONAL STATEMENT:

A highly skilled and proactive professional with a robust foundation in information technology and monitoring and evaluation, complemented by hands-on experience in data management, data analysis and visualization, activity monitoring, research, reporting and a commitment to extract actionable insights to foster decision-making and strategic planning. Adept at employing a variety of analytical tools and methodologies to facilitate data-driven strategies and impactful research outcomes.

EDUCATION:

- **November 2022** - Postgraduate Diploma in Monitoring and Evaluation, Uganda Management Institute
- **November 2017** - Bachelors of Science in Information Technology, Uganda Martyrs University

Certification:

- **September 2023** - Introduction to Data Science-Data Analytics, Cisco Network Academy

WORK EXPERIENCE:

Free Computer System Analyst – Desishub (January 2023 – To-date)

Key Roles: Develop data collection tools, analysis plans, and reporting frameworks, identify analytical requirements and collect information to meet customer and project demands, build web applications based on system requirements gathered from the client, analyze and Interpret change patterns in indicator data to facilitate visuals and written collateral to communicate output and outcome data, and write reports.

Monitoring, Evaluation and Learning Officer – Community Volunteer Initiative for Development (February 2022 – December 2022)

Key Roles: Led field data collection, management and analysis to foster timely reporting and decision-making, developed data collection tools and plans, tracked indicator performance, monitored M&E budget for effective project activity implementation, prepared and reviewed quarterly and annual project reports and work plans, built capacity of project staff on M&E concepts and tools, and regularly updated indicator performance tracker table and output tracker to ensure timely reporting. In addition,

timely analyzed and reported project results, documented learning insights and best practices to support review and learning events, led quality assurance, convened review and reflection meetings, conducted monitoring and technical support visits to working areas to assess progress against the M&E system, and adhered to child safeguarding policy to uphold the values of the organization.

Field Research Supervisor – Plan International Uganda (November 2021 – December 2022)

Key Roles: Led field enumerators in field data collection to generate information that guide programming process and foster decision-making, supervised and monitored field data collection activities, documented learning insights and best practices, assigned right respondents to enumerators based on the study methodology of data collection, conducted spot checks and fallbacks to assess the quality of data collected, reviewed and uploaded data collected to the server, and adhered to child safeguarding policy to uphold the values of the organization.

Research Assistant - Makerere University School of Public Health (February 2021 - April 2021)

Key Roles: Conducted field data collection through surveys and interviews to facilitate data analysis and visualizations and drive informed decision making, reviewed data collected to enhance data quality and management procedures, timely uploaded field data onto the server, and documented learning insights and best practices.

Research Assistant – Plan International Uganda (July 2020 – December 2020)

Key Roles: Conducted field data collection through surveys and interviews to facilitate data analysis and visualizations and drive informed decision making, reviewed data to enhance quality and management procedures, timely uploaded of field data onto the server, document learning insights and best practices, and documented significant change stories.

Field Research Supervisor – Plan International Uganda (August 2018 – August 2020)

Key Roles: Led teams of field enumerators in field data collection to generate information that guide programming process and foster decision-making, supervised and monitored field data collection activities for baselines, mid-lines, and end-line studies, documented learning insights and best practices, assigned right respondents to enumerators based on the study methodology of data collection, conducted spot checks and fallbacks to assess the quality of data collected, reviewed and uploaded data collected to the server, documented significant change stories, and adhered to child safeguarding policy to uphold the values of the organization.

Data Officer – Crater Apex Coffee Limited (May 2018 – November 2020)

Key Roles: Provided oversight in management, and utilization of data assets of the organization to enhance performance, tracked indicators, analyzed and interpreted change patterns in indicator data to facilitate visuals and written collateral to communicate output and outcome data, prepared quarterly and annual reports for internal and external reporting on the organization's performance, documented learning insights and best practices to support review and learning events, and maintained backup systems.

Research Assistant – Makerere University School of Public Health (October 2017 - April 2018)

Key Roles: Conducted field data collection of qualitative and quantitative studies to facilitate data analysis and visualizations, review data to enhance quality and management procedures, documented

learning insights and best practices to support review and learning events, and timely uploaded field data onto the server.

NOTABLE MILESTONES:

- Successfully designed and implemented data management systems for multiple research projects.
- Developed SQL, Access & Excel databases and M&E MIS to capture beneficiary data
- Designed M&E frameworks, plans and tools, and SOPs for data quality and management
- Recognized for outstanding data analysis skills and contributions to field research integrity.
- Developed information sharing materials and newsletters
- Developed reporting templates to strengthen accountability mechanisms.

SKILLS:

- Data Analysis (Ms Excel, R, and SPSS) | Data Collection and Entry (KoboCollect, Excel, SurveyCTO) | Data Cleaning and Validation | Report Writing | Tool Development | Monitoring and Evaluation | Quality Assurance | Team Development | Communication | Project Management | Research Methodology | Ethical Research Practices

LANGUAGES:

- English: Fluent

REFEREES:

1. Mr. Barigye Julius
Programmes Coordinator-Community Volunteer Initiative for Development
+256774357974 | jbarigye7@gmail.com
2. Mr. Julius Batemba
Programme Effectiveness & Innovation Team Leader-Oxfam in Africa
+256785659650 | jbatemba@yahoo.com
3. Mr. Ouma Ronald
Head of MEAL- Action Against Hunger
